

MRS. LYON'S ACHES AND PAINS

Have All Gone Since Taking
Lydia E. Pinkham's Veg-
etable Compound.

Terre Hill, Pa.—"Kindly permit me to give you my testimonial in favor of Lydia E. Pinkham's Vegetable Compound. When I first began taking it I was suffering from female troubles for some time and had almost all kinds of aches—pains in lower part of back and in sides, and pressing down pains. I could not sleep and had no appetite. Since I have taken Lydia E. Pinkham's Vegetable Compound the aches and pains are all gone and I feel like a new woman. I cannot praise your medicine too highly."—Mrs. AUGUSTUS LYON, Terre Hill, Pa.

It is true that nature and a woman's work has produced the grandest remedy for woman's ills that the world has ever known. From the roots and herbs of the field, Lydia E. Pinkham, forty years ago, gave to womankind a remedy for their peculiar ills which has proved more efficacious than any other combination of drugs ever compounded, and today Lydia E. Pinkham's Vegetable Compound is recognized from coast to coast as the standard remedy for woman's ills.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health—many of them openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound; and in some cases that it has saved them from surgical operations.

Make the Liver Do its Duty

Nine times in ten when the liver is right the stomach and bowels are right.

CARTER'S LITTLE LIVER PILLS gently but firmly compel a lazy liver to do its duty.

Cures Constipation, Indigestion, Sick Headaches, and Distress After Eating.

SMALL PILL. SMALL DOSE. SMALL PRICE.

Genuine must bear Signature

W. D. Wood

Swift Heredity.

"I have the blood of many fighting men running in my veins."

"Yes, and I bet it runs all the faster when it smells powder."

The Resemblance.

"Oculists are like poets in one way."

"What's that?"

"They live on their eye-deals."

A woman's conscience is almost as elastic as her tongue.

Are Your Kidneys Weak?

Do you know that deaths from kidney troubles are 100,000 a year in the U. S. alone? That deaths have increased 72% in 20 years? If you are run down, losing weight, nervous, "blue", and rheumatic, if you have backache, dizzy spells and urinary disorders, act quickly. Use Doan's Kidney Pills. No other medicine is so widely used, none so highly recommended.

A Michigan Case

"My Father Told a Story." Whitney St. Grand Ledge, Mich., says: "I was in great pain with kidney complaint and doctors' prescriptions failed to help me. My limbs were stiff and the pains in my back were so severe that I couldn't stoop or lift. I had sharp pains across my shoulders. Doan's Kidney Pills drove away these ailments and improved my condition in every way. I have had no serious trouble since."

DOAN'S KIDNEY PILLS
FOSTER-MILBURN CO., BUFFALO, N. Y.

Paxtine

A Soluble Antiseptic Powder to be dissolved in water as needed For Douches

In the local treatment of woman's ills, such as leucorrhoea and inflammation, hot douches of Paxtine are very efficacious. No woman who has ever used medicated douches will fail to appreciate the clean and healthy condition Paxtine produces and the prompt relief from soreness and discomfort which follows its use. This is because Paxtine possesses superior cleansing, disinfecting and healing properties.

For ten years the Lydia E. Pinkham Medicine Co. has recommended Paxtine in its private correspondence with women, which proves its superiority. Women who have been relieved say it is "worth its weight in gold." At 50c. per box, 50c. large box or by mail. Sample free. The Paxton Toilet Co., Boston, Mass.

PARKER'S HAIR BALM
A toilet preparation of merit. Helps to eradicate dandruff. For Restoring Color and Beauty to Gray or Faded Hair. 50c. and 1.00 at Druggists.

W. N. U., DETROIT, NO. 23-1915.

Concerning the Made-Over Gown

Some of the season's styles, but not many of them, lend themselves to the remodeling of gowns. Women who are clever at this work have been quick to grasp the possibilities of those models in which two fabrics are used for constructing the body of the gown.

The difficulty lies nearly always in widening the skirt. If one possesses a last season's gown very wide and voluminous as to the hips and very scant as to the hem, it is sometimes possible to simply reverse it. That is, the bottom of the skirt last year becomes the top this year. The fashion of wearing yokes to which the lower part of the skirt is set on helps out, and the vogue for very short skirts is also to be reckoned with in making over things.

Other features in the present modes that encourage remodeling are the use of wide bands of silk about the bottom of skirts as a finish, and the introduction of two or three bands in the body of the skirt. The same silk may supply new sleeves and a part of the bodice. Wide, loose girdles of silk that swathe the figure and obliterate the waist line are good style and will be for another season, at least. The separate tunic, or two-piece skirt, and the small coat, made in a

color sharply contrasting with that of the gown, are items in the mode that offer very interesting features to the economist. The tunic skirt is graceful and popular, and last year's skirt is easily converted into a tunic over a drop skirt of another material. Long sleeves of chiffon or other diaphanous material may solve the problem when new sleeves must be used.

A pretty and simple gown of two materials is shown in the picture given here. The skirt, which is short and faced upon the under side, is attached to a gathered yoke of silk by a piping of silk over cable cord. Last year's coat becomes this year's bodice by means of a wide girde of silk finished with flat loops and ends at the right side. This girde is provided with buttonholes at the front and back which fasten over decorative buttons.

A rolling collar of silk and long cuffs set on with a piping to the sleeve complete a design completely in the fashion of the present time.

Hand Embroidery.

Hand embroidery plays a prominent part in the trimming of this frock. There are many lovely frocks of net almost covered with embroidery.

Footwear That Is Smart

Not within the memory of the oldest observer of fashions has there been a time when women gave so much attention to their footwear, or the makers of shoes to their designers.

The new shoes, high or low, for summer wear are nothing less than marvels of workmanship in which combinations of colored leathers or of cloth and leather are wrought into the daintiest and snappiest of crisp-looking clothing for the feet. The plain shoe comes in for little consideration, for even the utility shoe of tan leather takes upon itself tips and bands in deeper shades of tan or in gray, and reveals in decorative stitchings. Also it laces up at unheard of positions, all. It must be confessed, to the advantage of the wearer as to the appearance of her feet. A fine example of a low shoe of this kind is shown in the group pictured here.

The other low shoe is designed for more dressy wear, showing a combination of black patent leather with a colored cloth. Beautiful stitching and graceful shaping in the emplacements of leather make this a gem to be considered. The inside lace is really a great improvement over the

front lace, if not for greater convenience, for beauty.

Except for ornamental stitching nothing is used in the way of decoration on the new shoes. No buckles or bows could be used where the body of the shoe furnishes all the variety in composition needed. A certain trimness, too, in the designs compels the absence of decoration, also. It is a case of realizing the force of that adage against painting the lily and adorning the rose.

The high shoes pictured are combinations of patent leather and colored cloth. They are shown with the front and the side lace. Similar shoes for midsummer made in a combination of black and white leather will vie with low shoes to be worn with white dresses and with combinations of black and white.

The vogue of colored cloth and unusual colors in leather combined with black for shoes promises to remain with us for some time. Already those who make the shoes used in footwear are matching up the colors in dress goods which manufacturers are making ready for fall.

JULIA BOTTOMLEY.

BRAKEMAN'S RESCUE IS REAL THRILLER

On Pilot of Engine He Prepares
to Save Woman, When—
Read the Story.

Indianapolis.—L. A. Campbell, a brakeman on the Monon road, had an exciting experience recently that almost equals the stirring scenes in the "movies." Campbell, looking ahead of the freight train on which he was braking, saw an object that resembled the form of a woman on the track.

Hastily climbing to the pilot of the engine, Campbell made ready to make a heroic rescue of the person in danger. He got a firm grip and prepared to grab the woman as the train reached the spot.

When the engine was within a few

Realized With a Chill That It Was a Black and White Pony.

hundred feet of the object Campbell realized with a chill that it was not a woman, but a white and black pony. He hastened to the engine's running board in order to avoid being crushed between the pony and the pilot. Just before the engine reached the spot where the animal was standing, the latter leisurely walked off the track. Heads of perspiration fell from Campbell's forehead.

"No more 'movies' for mine," said he as he returned to his duties as brakeman.

STORK SAVES DAD FROM JAIL

Unemployed, He Was on Trial Charged With Stealing When It Came.

Chicago.—A mite of a girl baby saved Powet Rokozure from a possible jail sentence for stealing six potatoes. The man has walked Chicago's streets for work for 18 months. His wife did the same thing until recently.

Rokozure was in court charged with stealing the potatoes from the railroad yards.

"Are you married?" asked Judge Caverly.

"Yes; we have one little girl," replied Rokozure.

"How old?" asked the court solicitously.

"About five hours," said Rokozure.

"Case dismissed. Congratulations," said the judge, who then ordered his own grocer to "take some things out to the new little girl."

TRAINS COLTS TO KICK RATS

Wisconsin Man Rids Stable of Rodents Through Conservation of Energy.

Klondike, Wis.—Hiler Oswaller is receiving letters from all over the country from persons who want him to come with his trick colts and assist in exterminating rats. Hiler, in a confidential mood the other day, told how he trained his colts. The idea came to him one day when he entered the stable and saw them kicking away at nothing in particular.

"I saw all that energy going to waste," says Hiler, "and it made me sick. I knew there ought to be some way to utilize their activity. I had been troubled with rats and I figured the colts could help me. I tied a dead rat on the end of a whip and banged the colts on the shins with it. If they kicked the rat I rewarded them with an ear of corn. Now it's as much as a rat's life is worth to venture in the Oswaller stables."

READS BIBLE WHILE LOOTING

Pickpocket Works at Trade at Canton, O., and Keeps Eyes on Testament.

Canton, O.—"Are you a Christian?" Abraham Tanner was asked a few days ago by a man for whom he had just purchased a meal in a restaurant.

"I think I am," said Tanner.

The man pulled a small testament from his pocket and began to read from the Scriptures while he removed Tanner's purse from his pocket. Tanner grabbed him. The thief broke away and ran into the arms of a policeman.

Children Cry For

Fletcher's CASTORIA

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Chas. H. Fletcher

In Use For Over 30 Years

The Kind You Have Always Bought

THE CENTAUR COMPANY, NEW YORK CITY.

HORSES FOR EUROPE

Europe is buying thousands of horses from the United States for the war. The army agents refuse all horses that are not in good condition and free from contagious and infectious diseases. When the buyers come you must be ready to sell. Keep your horses in salubrious condition, prevent and cure Distemper, Pink Eye, Spasmodic Cough and Shipping Fever by using the largest selling veterinary remedy.

SPORN'S DISTEMPER COMPOUND.

Absolutely safe for all ages. One bottle cures a case. 50 cents and \$1 the bottle. 25 and 50¢ the dozen. Write for free booklet, "Distemper, Coughs and Cures." SPORN MEDICAL COMPANY, Chemists and Bacteriologists, GOSHEN, INDIANA.

"MASON AND DIXON'S LINE"

Popular Misapprehension as to Meaning of Term and Just What the Phrase Implied.

Very incorrect is the general belief that Mason and Dixon's line, as originally laid off, divided the slave-holding states from the free states. On the contrary, it ran for one-third of its whole length between Maryland and Delaware, both of which were slave-holding states at the time. The line was run purely to settle a boundary dispute between Pennsylvania, Maryland and Delaware.

All the same, the actual Mason and Dixon's line was as much synonym for trouble and dissension in its day as was the figure of speech to which in after years it gave rise. And the phrase will hold bitter meaning to some until (in that looked-for day of charity to all men) shall be fulfilled Dr. John Wyeth's recent prophecy that "When the people of the South and the North get together they will forget there was ever a Mason and Dixon's line."—Southern Woman's Magazine.

It is the visiting preacher, and not the regular pastor, who talks plainly to the congregation.

An entertaining woman is one who permits a man to talk about himself.

Light More Beneficial Than Heat.

When rays of light fall upon the skin of our bodies, which is translucent, the greater part of them are arrested, some by one layer of the skin, some by another and still others are not stopped until they have penetrated the subcutaneous tissues. This arrest of the light rays produces radiant heat, which has a higher penetrating power than convection heat as generated by a hot water bag or poultice, for instance.

E. C. Titus in an address before the Illuminating Engineering society said that such heat penetrated two inches or more, while convection heat was excited principally on the surface.

This is why electric light baths and sun baths are so stimulating to the organs of elimination, especially the skin and kidneys, and so beneficial in so many diseases.

Unfair Advantage.

"Don't you ever let me catch you kissing my daughter again, sir!" thundered the irate father.

"You won't, sir," answered the quaking youth. "You wouldn't have caught me this time if you hadn't been wearing rubber heels."

And a good many prayers ought to be blue penciled.

Before starting on the right track, be sure you are headed the right way.

DAISY FLY KILLER

placed anywhere, attracts and kills all flies. Neat, clean, or unsightly, convenient, cheap. Kills all seasons. Made of metal, non-toxic, over; will not soil or injure anything. Unquestioned effective. All dealers request 50¢ per box. \$1.00 per dozen. HAROLD BOMERS, 158 De Kalb Ave., Brooklyn, N. Y.

Famous Feats of Archery.

In the days when the buffalo was found in vast herds on the western plains there were Indians who, while riding at a gallop, could send an arrow through a buffalo's body. Remarkable as this archery was, it did not equal that reached by the archers of ancient times. It is of record that the MacReas of Gairloch, Scotland, were such skilled archers that they could hit a man at the distance of 500 yards. In 1794 the Turkish ambassador at London shot an arrow in a field near that capital 415 yards against the wind. The secretary of the ambassador on hearing the expressions of surprise from the English gentlemen present, said the Sultan had shot 500 yards. This was the greatest performance of modern days, but a pillar standing on a plain near Constantinople recorded shots ranging up to 800 yards. Sir Robert Ainslie, British ambassador to the Sublime Porte, recorded that in 1798 he was present when the sultan shot an arrow 973 yards.—Washington Star.

A Warning.

Doctor—You've had a terrible shock. Patient—It's up to you to see that I don't have another when I get your bill.

This is to the credit of human nature: It is not on record that anyone ever resolved to be meaner next year.

Madam, Allow Me To Introduce the

New Post Toasties

You may have eaten "corn flakes" but you have never tasted any that equal the New Post Toasties.

These new flakes, madam, are crisp and flakey, and have a substance and toastie flavour, a snap and zest that make them distinctive.

Dainty to be sure in their sweetness, the New Post Toasties have a body and firmness that don't mush down when cream or milk is added; and a true ripe-corn flavour that makes one feel that here, at last, is something really new and good to eat.

New Post Toasties—selected Indian corn, prepared for the table as it was never prepared before.

Your grocer has them now.
